Instructions: Use this Questionnaire for all participants meeting the eligibility criteria who have provided written informed consent to participate. Please do not leave any questions blank. Instead, mark the "DK" box if the participant states that they "don't know" the answer to a question. If the participant is willing to answer but doesn't know the exact answer, encourage him/her to estimate, as this is better than a DK answer. If the participant refuses to answer a question, mark the "REF" box for "refused" to answer.

1. Mark the sex of participant: male female

Interviewer reads:

Thank you for agreeing to participate. First, I would like to ask you a few questions. Some of these questions may be uncomfortable to answer. Please remember that you do not have to answer any questions that you do not want to answer and you may discontinue the interview at any time. If I ask a question that you don't want to answer, just let me know and I will go on to the next question. Our discussion will last no more than minutes.

SEXUAL ACTIVITY

Instructions: This section of the form addresses sexual behaviors and asks that the participant recall his/her sexual partners over the **past 6 months**.

Interviewer reads:

Now I would like to ask you some questions about your recent sexual activity. I know these questions are sensitive and want to remind you that your answers are completely private. This means that they will not be shared with anyone outside of the study team. No one will know what particular answers you give. This form will not have your name anywhere on it. Instead, you will only be identified by a number. If we should come to any questions that you don't want to answer, just let me know and we will go on to the next one.

Different people have different definitions of "sex" or "sexual intercourse." For this study, when we say "sex" we mean:

- Vaginal sex, which is when a man puts his penis in a woman's vagina.
- Anal sex, which is when a man puts his penis in another person's anus.

Do you have any questions before continuing?

SEXUAL ACTIVITY

Instructions: This section of the form addresses sexual behaviors and asks that the participant recall his/her sexual partners over the **past 6 months**.

Interviewer reads:

Now I would like to ask you some questions about your recent sexual activity. I know these questions are sensitive and want to remind you that your answers are completely private. This means that they will not be shared with anyone outside of the study team. No one will know what particular answers you give. This form will not have your name anywhere on it. Instead, you will only be identified by a number. If we should come to any questions that you don't want to answer, just let me know and we will go on to the next one.

Different people have different definitions of "sex" or "sexual intercourse." For this study, when we say "sex" we mean:

- Vaginal sex, which is when a man puts his penis in a woman's vagina.
- Anal sex, which is when a man puts his penis in another person's anus.

Do you have any questions before continuing?
